

Prague Viburnum

Viburnum x pragense

Height: 12 feet

Spread: 12 feet

Sunlight:   

Hardiness Zone: 6a

Description:

A broadleaf semi-evergreen shrub featuring large flat-topped clusters of white flowers in spring and shiny deep green foliage; upright and rounded, tough and adaptable, but needs protection from winter wind. Evergreen to about -5°F

Ornamental Features

Prague Viburnum features showy clusters of lightly-scented creamy white flowers at the ends of the branches in mid spring, which emerge from distinctive pink flower buds. The crimson fruits are held in abundance in spectacular clusters from late summer to late winter. It has dark green evergreen foliage. The glossy narrow leaves remain dark green throughout the winter.

Landscape Attributes

Prague Viburnum is a multi-stemmed evergreen shrub with a shapely oval form. Its relatively coarse texture can be used to stand it apart from other landscape plants with finer foliage.

This is a relatively low maintenance shrub, and should only be pruned after flowering to avoid removing any of the current season's flowers. It is a good choice for attracting birds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Prague Viburnum is recommended for the following landscape applications;

- Accent
- Mass Planting
- Hedges/Screening
- General Garden Use

Planting & Growing

Prague Viburnum will grow to be about 12 feet tall at maturity, with a spread of 12 feet. It has a low canopy, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub performs well in both full sun and full shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.
